Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ASAP Ministries, Inc. as of September 30, 2021 and 2020, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The financial statements of ASAP Ministries, Inc. have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables, and other liabilities.

Basis of Presentation. In August 2016, the Financial Accounting Standards Board issued Accounting Standards Update 2016-14 Not-for-Profit Entities Presentation of Financial Statements of Not-for-Profit Entities. The amendments in this update are designed to improve the presentation of net asset classification requirements and the information presented in financial statements and notes about a not-for-profit entity's liquidity, financial performance, and cash flows. ASAP Ministries, Inc. has adopted the provision as of September 30, 2019.

ASAP Ministries, Inc. presents its financial statements in accordance with FASB ASC Topic 958, Subtopic 210 (FASB ASC 958-210), Presentation of Financial Statements of Not-for-Profit Entities. Under FASB ASC 958-210 ASAP Ministries, Inc. is required to report information regarding its financial position and activities according to the following two classes of net assets:

Net assets without donor restrictions – Net assets that are not subject to stipulations;

Net assets with donor restrictions – Net assets that are subject to stipulations that will be met by actions of ASAP Ministries, Inc. or the passage of time. Substantially all the restrictions on these assets relate to the funds contributed for specific missionary projects throughout the world. These funds are utilized as expenditures are incurred for various projects. Also included in the net assets with donor restrictions are donor advised funds which are available for disbursement at the recommendation of the donor subject to approval by the Board of Directors.

Revenues and gains and losses from operations are reported as changes in net assets without donor restrictions. Expenses are reported as changes in net assets without donor restrictions. Expirations of donor restrictions on net assets are reported as reclassifications between the applicable classes of net assets.

Revenue Recognition. In accordance with the provisions of Financial Accounting Standards Board Accounting Standards Codification Topic 958-605, Not-for-Profit Entities – Revenue Recognition (FASB AC 958-605), unconditional contributions are generally recognized as revenues or gains in the period received and as assets, decreases of liabilities, or expenses depending on the form of the benefits received. Unconditional promises to give (pledges) are recognized as revenues once a valid pledge has been received. The receivable and corresponding revenue are recognized concurrently. Conditional contributions and pledges are recorded when the conditions have been met.

NOTE 9 – FAIR VALUE MEASUREMENTS

FASB ASC 820-10, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

Level 1 Fair Value Measurements: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the company has the ability to access.

Level 2 Fair Value Measurements: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following methods and assumptions were used by the Organization in estimating the fair value of its financial instruments:

The carrying amounts of cash and cash equivalents, receivables, accounts payable, and prepaid expenses approximate fair values due to the short-term nature of these financial instruments.

Investments: Fair values, which are the amounts reported in the statement of financial position, are based on quoted market prices, if available, or estimated using quoted market prices for similar securities.

The obligations under long-term debt arrangements are carried at their principal amounts which reflect the fair market values of these liabilities.

The carrying values of all the financial instruments are the same as their fair value.
